ATTORNEYS FOR PLAINTIFF  
CENZIC INC.

UNITED STATES DISTRICT COURT  
NORTHERN DISTRICT OF CALIFORNIA

CENZIC INC.

Plaintiff,

vs.

NT OBJECTIVES INC.,

Defendant.

CIVIL CASE No.:

CV 11-00693

DMR

COMPLAINT FOR PATENT INFRINGEMENT

DEMAND FOR JURY TRIAL

E-FILING

Plaintiff Cenzip Inc. ("Cenzip") for its Complaint against Defendant NT OBJECTives, Inc. ("NTO"), alleges as follows:

### **THE PARTIES**

1. Plaintiff Cenzip is a corporation duly organized and existing under the laws of the State of California with its principal place of business at 455 El Camino Real, Suite #100, Santa Clara, CA 95050 in this district.

2. Cenzip is informed, and believes, and thereupon alleges, that defendant NTO is a corporation organized and existing under the laws of the State of California and having its principal place of business at 18801 Tabor Drive, Irvine, California 92603. Upon information and belief, NTO has substantial contacts and transacts substantial business, either directly or through its agent, on an ongoing basis in this judicial district and elsewhere in the United States.

3. Unless specifically stated otherwise, the acts complained of herein were committed by, on behalf of, and/or for the benefit of NTO.

### **NATURE OF THE ACTION**

4. This is an action for patent infringement.

5. Cenzip is informed, and believes, and thereupon alleges, that NTO has been and is infringing, contributing to the infringement of, and/or actively inducing others to infringe the claims of U.S. Patent No. 7,185,232 ("the '232 Patent" or "Asserted Patent"), a copy of which is attached hereto as Exhibit A.

### **JURISDICTION AND VENUE**

6. This action arises under the patent laws of the United States, 35 U.S.C. § 1 *et seq.*, including 35 U.S.C § 271. This Court has subject matter jurisdiction pursuant to 28 U.S.C. §§ 1331 and 1338(a).

7. This Court has personal jurisdiction over NTO because NTO has substantial contacts and conducts business in the State of California and in this judicial district, and has been infringing, contributing to the infringement of and/or actively inducing others to infringe claims of the Asserted Patent in California and elsewhere.

## FACTUAL BACKGROUND

9. Cenizc is the trusted provider of software, managed service, and cloud security products which help organizations secure their websites against hacker attacks. Cenizc focuses on Web application security, automating the process of identifying security defects at the Web application level where more than 75% of attacks occur, help customers in remediating those defects, manage risk and get compliance with regulations such as Payment Card Industry (“PCI”). Cenizc is unique in the industry as its products are built on a non-signature-based patented technology. Cenizc solutions secure websites of numerous Fortune 1000 companies, including all major security companies, leading government agencies and universities, and hundreds of small and medium business (“SMB”) companies.

10. Cenzic has made large-scale investments in the exploitation of its technology and several companies have paid for licenses to its patents. Cenzic has granted licenses of varying scope to its technology to some of the world's largest technology companies.

11. CenZic has spent millions of dollars on research and development of its valuable technology. CenZic relies on the United States patent system to protect the technology resulting from its research and development. CenZic's continued success depends on its research and development of non-signature-based patented technology and other solutions, as well as the protection of intellectual property in its innovative technology.

12. On February 27, 2007, U.S. Patent No. 7,185,232, titled “Fault injection methods and apparatus,” was duly and legally issued to CenZic as assignee of named inventors Penny C. Leavy, Michael Gregory Hoglund, Jonathan Walter Gary, and Riley Dennis Eller.

13. At all relevant times, the Asserted Patent has been owned by Cenzip.

**C. NTO's Acts of Infringement**

14. Cenzip is informed and believes, and thereupon alleges, that NTO has made, used, sold, imported and/or offered for sale, and/or continued to make, use, sell, import and/or offer for sale, products in the United States, in accordance with the notice provided to NTO, at least as early as September 25, 2009.

15. The aforementioned NTO products are hereinafter referred to collectively as the "Accused Products." The Accused Products include but are not limited to at least the following: the NTOSpider product line, including but not limited to Web Application Security Scanner, NTOSpider On-Demand, NTOEnterprise; and the NTODefend product line, as well as all product configurations, packages, and/or suites including the same.

16. NTO's making, use, sale, offers for sale, and/or importation of the Accused Products in the United States constitute acts of direct infringement of the Asserted Patent.

17. Cenzip is informed, and believes, and thereupon alleges, that NTO has sold or offered to sell its Accused Products to third parties who has incorporated, or continues to, incorporate the Accused Products into their own products. Those third parties in turn have made, used, sold, offered for sale, and/or imported and/or continue to make, use, sell, offer for sale, and/or import their own products in the United States. These activities undertaken by such third parties constitute acts of direct infringement of the Asserted Patent. The features provided in NTO's Accused Products are known by NTO to be especially made or especially adapted for use in infringement of the Asserted Patent and are not staple articles or commodities of commerce suitable for substantial non-infringing use. NTO has thereby contributed to and continues to contribute to the infringement of the Asserted Patent.

18. Cenzip is informed, and believes, and thereupon alleges, that, by its sales and/or offers for sale of the Accused Products to third parties, NTO also has induced and continues to induce acts by third parties that NTO knew or should have known would constitute direct infringement of the Asserted Patent. NTO actively induces infringement of the Asserted Patent

by designing the Accused Products to be capable of infringement and by promoting and encouraging the use of its products by the third parties in ways that infringe the Asserted Patent.

19. Cenzip is entitled to recover from NTO the actual damages it sustained as a result of NTO's wrongful acts alleged herein under 35 U.S.C. § 284 in an amount to be proven at trial, together with interest and costs.

20. Cenzip is informed and believes, and thereupon alleges, that NTO's infringement of the Asserted Patent as set forth herein has been and is willful, deliberate and in disregard of Cenzip's patent rights, and Cenzip is therefore entitled to increased damages up to three times the amount of actual damages and attorneys' fees, pursuant to 35 U.S.C. §§ 284 and 285.

21. NTO's infringement of the Asserted Patent will continue to damage Cenzip, causing irreparable harm for which there is no adequate remedy at law, unless it is enjoined by this Court.

**FIRST COUNT**  
**INFRINGEMENT OF U.S. PATENT NO. 7,185,232**

22. Cenzip incorporates by reference and realleges paragraphs 1 through 23 above as though fully restated herein.

23. Cenzip is informed and believes, and thereupon alleges, that NTO: (1) has infringed and continues to infringe claims of the '232 Patent, literally and/or under the doctrine of equivalents, by making, using, offering to sell, selling (directly or through intermediaries), and/or importing Accused Products consisting of or including NTOSpider products, in this district and elsewhere in the United States, and/or (2) has contributed and continues to contribute to the literal infringement and/or infringement under the doctrine of equivalents of claims of the '232 Patent, and/or has actively induced and continues to actively induce others to infringe claims of the '232 Patent, literally and/or under the doctrine of equivalents, in this district and elsewhere in the United States.

**PRAYER FOR RELIEF**

WHEREFORE, Plaintiff Cenzip asks this Court to enter judgment in its favor against NTO and grant the following relief:

1. An adjudication that NTO has infringed and continues to infringe the Asserted Patent as alleged above;
2. An accounting of all damages sustained by Cenzip as a result of NTO's acts of infringement of the Asserted Patent;
3. An award to Cenzip of actual damages adequate to compensate Cenzip for NTO's acts of patent infringement, together with prejudgment and post judgment interest;
4. An award to Cenzip of enhanced damages, up to and including trebling of Cenzip's damages pursuant to 35 U.S.C. § 284 for NTO's willful infringement of the Asserted Patent;
5. An award of Cenzip's costs of suit and reasonable attorneys' fees pursuant to 35 U.S.C. § 285 due to the exceptional nature of this case, or as otherwise permitted by law;
6. A grant of a permanent injunction pursuant to 35 U.S.C. § 283, enjoining NTO, and each of its agents, servants, employees, principals, officers, attorneys, successors, assignees, and all those in active concert or participation with NTO, including related individuals and entities, customers, representatives, OEMs, dealers, and distributors from further acts of: (1) infringement, (2) contributor infringement, and (3) active inducement to infringe with respect to the claims of the Asserted Patent;
7. Any further relief that this Court deems just and proper.

**JURY DEMAND**

Plaintiff Cenzip requests a jury trial on all issues triable to a jury in this matter.

1 Dated: February 15, 2011
